* The work commitments for Kernpraktikum I (Kernpraktikum II) include the following guidelines: 10-15 days of practical work during the semester; 20-25 (20) days at school during the block internship. Observation visits at other schools are possible. The block phase is a full-time internship. Students participate actively and responsibly in school life (e.g. attending school or subject conferences and parent-teacher meetings). They are expected to plan, teach, and reflect on 15-20 (12-15) lessons under the guidance of supervising teachers, and observe 50 (40) lessons. Further requirements include regular reflection and coordination meetings with mentors, as well as lesson preparation and follow-up.
